

## HYDRANT AND WATER MAIN FLUSHING FALL 2020

Evansville Water and Light will be flushing water mains starting Monday Sept 28th through Wednesday Oct 7th. Flushing is done to check hydrants and remove any sediments from the water mains. You may experience some brown water when we flush the mains in your neighborhood. To prevent this, it is best not to run water while we are flushing in your area. If you do experience discolored water, turn on your cold water tap until it runs clear. Thank you
